

Which explains why
Apparently
So far
Either that or
Unfortunately
And the good news is
Which means
I know what you're all thinking
If everything goes well
It's official
Don't get excited
Before you judge
At least that's what
It makes sense when you realize
Which confirms everyone's suspicions
You can read about it in
They/he's calling it
It's called
Finally! (something you don't need,
redundant or insane)
If it doesn't work out. . .
BLANK got suspicious
Police are looking for
Much better than the original
The weird part is
That still doesn't explain
Five words:

Somewhat unpromising
Ominously
So, take that
They've already decided on
He went on to say
Say what you want about. . .
That still doesn't explain
And with that. . .
Here's my question
Which is strange, because
But critics say
In keeping with tradition
In keeping with regulation
Without giving too much away
That's better than his usual response
It's all a misunderstanding. . .
I think the standards have lowered a bit
because. . .
Now, he's overcompensating
The working nickname for the device
So far, the working title is
Then he said, if elected,
Phase one:
Now, he's overcompensating because
However, upon closer inspection
The last time he won something
Upon closer inspection
The last time he won something
Upon closer inspection
Moments later
Later, when the cameras were off
When asked what he missed most, he said
I think the real story here is that
